CHANNEL CONNECTOR SK

APPLICATION

Developed for easily and safely joining Channels on or for pre-assembly in the workshop with a minimum of individual parts.

The overall design ensures there is no static weak point near the channel connector when single channels are connected. For single channels, the figures as indicated on page 3-7 are applicable.

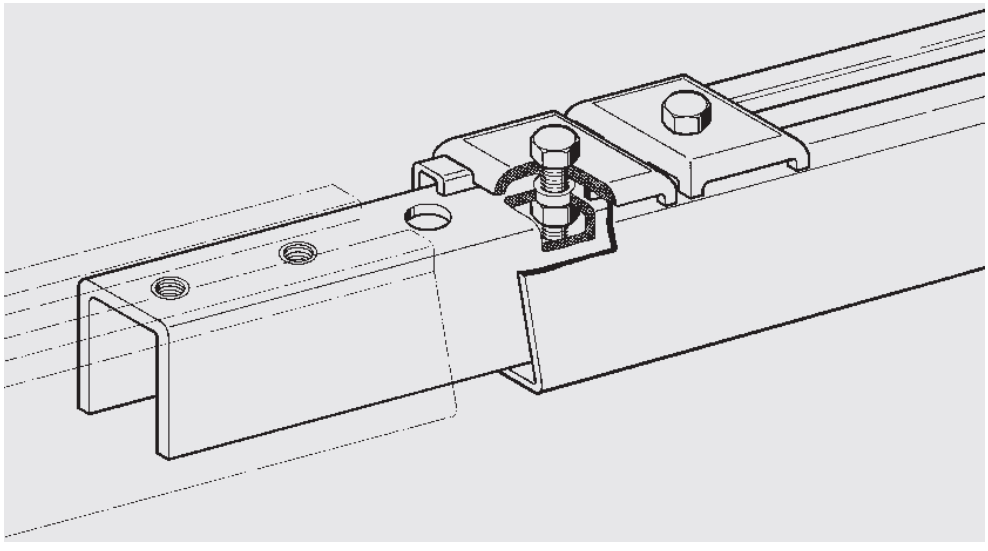

SCOPE OF DELIVERY

With 41 Holding Brackets and hexagon nuts (supplied loose).

Installation To guarantee the static values, the supplied elements have to be used. For extension of double channels, see advice brochure "Installation Guidelines".

TECHNICAL DATA

Material: Malleable iron, electro-galvanised.
