

# SLIDE SET GS H3G SS

## APPLICATION

Heavy-duty Slide Set for plant construction.

To be used preferably in combination with pipe clamps Stabil D-3G ss. Various connection options of the pipe clamps depending on the respective load: M12, M16 or with 1/2" adapters using the external thread

(see Adapter f/f ss).

Especially suitable for ceiling and floor mounting solutions and as a guide for rising pipes. For wall mounting, we recommend the use of the Slide Set on Support Brackets. When mounting the Slide Set directly to a wall, the reduced permissible loads of the anchors are to be taken into consideration.

Sound absorption by means of slide rails with glass fibre reinforced polyamide.

## INSTALLATION

For pipes of NB 100 or larger having to be spaced at a distance from the Slide Set, or under conditions of reversed bending stress, the 3G triple thread nuts are to be secured by screwing on a 1/2" stainless steel Locking Nut.
