HOLDING BRACKET HK HCP

APPLICATION

Safety element for channels to be used instead of simple washers. The Holding Bracket prevents the edges along the opening of the channels from bending, and ensures optimum load distribution. When loads are imposed along the Channels, B41 Holding Brackets provide for additional safety due to embossed teeth, which bite into the channel.

Suitable for single and double channels.

Special blanking guarantee high safety and shear forces after reaching form closure, especially for bolted through connecting elements.

TECHNICAL DATA

Material: Steel, HCP.

Type	Suitable for channels of width [mm]	Bore[mm]
41/10	41	11
41/12	41	13
41/16	41	17

Codice	Nome	Peso	Numero di pezzi
179606	41/10	0.06	50
179615	41/12	0.07	50
179624	41/16	0.07	50
