

PROFILATI 41

FORNITURA

I profilati doppi (sistema con base 41) sono uniti mediante ribattitura.

O profilati sono disponibile in verghe da 3 o 6 m. Profilati di lunghezza da 2m o tagliati a misura sono disponibili su richiesta.

MONTAGGIO

In caso di necessità si possono costruire dei profilati doppi direttamente in cantiere unendo due profili singoli:

- con le asole tipo 2: utilizzare bulloni M8 x 16
- con le asole tipo 3 e 4: utilizzare il morsetto di accoppiamento KL 1

Attenzione: i profilati devono essere fissati tra loro ogni 250 mm comprese le parti terminali.

Tutti i profilati con base 41 sono dentellati nella parte interna e sono compatibili con i prodotti della nostra gamma: dadi a martello HZ, piastre di sostegno WBD, morsetti TCS 1, Pressix 41 etc.
